Abstract (en)

[origin: US2018232752A1] The present disclosure is directed toward systems and methods for managing a digital survey over voice-capable devices. In particular, the systems and methods described herein create a digital survey question from a verbal input. Additionally, the systems and methods described herein provide the digital survey question to respondents by way of voice-capable devices. The systems and methods also receive verbal survey responses, generate survey results from the verbal responses, and provide the survey results to a survey administrator.
