Abstract (en)
[origin: WO2018153476A1] A refrigerated sales furniture (2) comprises a furniture body (3) with left and right side walls (5, 7) and a refrigerated sales space (10) for storing goods to be presented therein; and at least two door frame segments (12a, 12b) provided at the front of the refrigerated sales space (10). At least one of the door frame segments (12a, 12b) supports a door (8), such that the door (8) is movable between a closed position in which it closes a respective part of the refrigerated sales space (10) and an open position in which it allows accessing the respective part of the refrigerated sales space (10). The at least two door frame segments (12a, 12b) are moveable between a planar arrangement, in which the door frame segments (12a, 12b) extend in a common plane with the front facing of the furniture body (3), and at least one folded arrangement, in which the segments extend non-parallel to said common plane.
