Abstract (en)
[origin: WO2018153658A1] The present invention belongs to the cosmetic field and relates to a silicone-free shampoo composition for human hair comprising at least one PPG-alkyl ether, at least one cationic conditioning polymer and at least one anionic, amphoteric and/or non-ionic surfactant. The silicone-free shampoo composition of the present invention allows for a significant improvement of the detangling and/or combability of the hair, after use of the shampoo composition. At the same time, the shampoo composition of the present invention allows for an improved foam formation during washing the hair.
