Abstract (en)
[origin: CN110629389A] Disclosed is a looping tool carrier (2) having a support (3), which has a plurality of looping tools (4) arranged next to one another in the longitudinal direction, a guide bar contact surface (6) and a fixed geometric structure (5). It is desirable to maintain the total cost for manufacturing and maintenance to be low. According to the invention, the support (3) is releasably connected to at least one support (3) of another looping tool carrier (2) adjacent in the longitudinal direction.
