Abstract (en)
[origin: WO2018158535A1] The invention relates to a secure cap (1) that is dome-shaped and snap-fits onto the top of an aerosol can (100), said cap being provided with a side opening (2, 2a, 2b) for accessing a push button (6) for operating a valve (101) of the can, provided at the top thereof with an axial opening (3) for accessing an axial diffuser device (4) which is mounted on an outlet tube (102) of the valve (101) aligned with an axis of rotation of the can, and provided with a flap (5) for protecting said side opening (2a, 2b), which can be manoeuvred between a position for concealing the side opening and a position allowing free access to the side opening, and an aerosol can including same.
