Abstract (en)
[origin: EP3591211A2] A work vehicle includes: a prime mover section (2) that is provided in a front portion of a travel vehicle body (100); a hood (20) that covers the prime mover section (2); a driver section (4) that is provided rearward of the prime mover section (2) and has a driver seat (42); an engine (21) that is provided inside the hood (20); an air cleaner (24) that is provided inside the hood (20), above the engine (21), and processes external air that is to be supplied to the engine (21); an intake tube (61) that is coupled to the air cleaner (24) and takes air into the air cleaner (24); and a coupling tube (63) that is coupled between the engine (21) and the air cleaner (24), and supplies processed air that is external air processed while passing through the air cleaner (24), to the engine (21). The coupling tube (63) is coupled to the engine (21) while extending in a right-left direction of the travel vehicle body (100) and being coupled to the air cleaner (24).
