Abstract (en)
[origin: WO2018165616A2] Enteral connectors having coupling features for providing removable or permanent coupling engagement with a syringe connector. In some example embodiments, the syringe connector includes an ENFit compatible female connector. In other example embodiments, the syringe connector includes a threaded tip. In yet other example embodiments, the syringe connector includes a Luer Lock or luer-type connector or other desired threaded and compatible connector.
