Abstract (en)
[origin: WO2018162196A2] The invention relates to a method for producing a decal (10, 10") having at least one decoration (12), comprising the steps of: - providing a transfer paper (14), - printing a primer (16) by means of inkjet printing to the transfer paper (14) and/or on an embossing film (18) comprising a support layer (20) and a decorative layer (22), and - applying, at least in sections, the embossing film (18) to the transfer paper (14) using hot or cold embossing. The invention also relates to a decal (10, 10'), in particular obtained according to the claimed method, comprising a transfer paper (14) and a decoration (12) that can be separated from the transfer paper (14). The decoration (12) comprises an inkjet-printed primer (16), a decorative layer (22), an embossing film (18) and optionally, an inkjet-printed colour and/or colour layer (32) and/or an inkjet-printed protective coating (34). The invention further relates to a device (100, 100', 100'') for producing a decal (10, 10') and to a method for decorating surfaces of objects (50), in particular three-dimensional objects (50).
