Abstract (en)
[origin: WO2018162802A1] The present invention relates to a support arrangement for installing base and wall units (3) and a method for using such a support arrangement. Said aid comprises at least one telescopic extendable wall bracket (1) and end fittings (2) arranged thereto. A support arrangement according to the present invention also features a crossbar (6) mounted with a mould (7) to at least two palletisation pieces (13) on opposite sides of the mould. At least two adjusters (15) are arranged to cooperate with the crossbar and palletisation pieces in the crossbar's opposite ends located outside the mould, while the crossbar is surrounded by a protective pipe (10) in the mould. Finally, the wall bracket may be installed so that it protrudes from the crossbar.
