Abstract (en)  
The invention relates to a cooking appliance, specifically induction hob comprising multiple heating power transferring elements (2a - 2f), two or more heating power energy units (3a, 3b) for powering said heating power transferring elements (2a - 2f), a switching entity (4) and a control unit (5), the switching entity (4) comprising switching means (4.1) for selectively providing electric power to a subset of heating power transferring elements (2a - 2f), the control unit (5) being configured to control said switching means (4.1) of the switching entity (4) such that one or more heating power transferring elements (2a - 2f) are powered by a certain heating power energy unit (3a, 3b) in a, in particular vertical or horizontal, heating power transferring element arrangement.
