Abstract (en)

[origin: WO2018177592A1] The invention relates to a method or a device for securing bristles in a bristle carrier (10) without anchors, in which once the bristles have been inserted into anchoring openings (12) in the bristle carrier (10), these openings are closed by the application of pressure and heat. A transition edge (320) surrounding the anchoring opening (12) has a chamfered edge (322).
