Abstract (en)
[origin: WO2018172824A1] The invention relates to an insulating disposable container (100) comprising an outer casing (110) made of an insulating material and an inner casing (120) that is made of an insulating material and is housed in said outer casing (110). The insulating container (100) further comprises a plurality of spacers (130, 122, 123, 125) that are arranged between the inner casing (120) and the outer casing (110) and define at least one insulating cavity (140) between them.
