Abstract (en)

A housing assembly (100) and an indoor unit (1000) of an air conditioner having the same, where the housing assembly (100) is composed of face frame (1), which is provided with a front air outlet (111); two end covers (2), which are located in the left and right of the face frame (1) respectively. A part of at least one end cover (2) lies in front of the front surface of the face frame (1), and forms an auxiliary air passage (a) with the face frame (1). Moreover, side air outlet (21), connecting the auxiliary air passage (a), is mounted on at least one end cover (2). On the inner wall of the auxiliary air passage (a), the part limited by the face frame (1) forms the guide wall (112), which directs the air from front air outlet (111) to side air outlet (21).
