Abstract (en)  
[origin: WO2018184831A1] The invention relates to a packaging laminate which is easily tearable and consists of an extrusion-coated nonwoven fabric layer (6) made of a nonwoven fabric (2) of a polymer with a surface weight between 6 to 30 g/m<sup>2</sup>, wherein an extrusion coating (3) based on a polyolefin with a thickness between 2 and 15 g/m<sup>2</sup> is extruded onto a side of the nonwoven fabric (2), and the extrusion-coated nonwoven fabric layer (6) is connected to a laminating adhesive layer (5) with a base layer (7) which comprises at least one sealing layer (4) based on a sealable thermoplastic polymer with a thickness of 10 to 100 µm, wherein the laminating adhesive layer (5) is provided between the extrusion-coated side of the extrusion-coated nonwoven fabric layer (6) and the base layer (7).
