Abstract (en)

[origin: US2020148415A1] The invention relates to a packing module (10) comprising at least one cover (12), at least one closing system (16), and at least one connecting system (24) for connecting the at least one cover (12) to the at least one closing system (16). It is contemplated that the packing module (10) has, at least partly, at least one, preferably at least two, and more preferably at least three of the following features: water-repellent, waterproof, saltwater resistant, breathable, a relative elasticity of at least 10%. The invention further relates to a packing system, uses, as well as a modular system.
