Abstract (en)

[origin: WO2018184969A1] The invention relates to a combustion chamber arrangement (10) for the injection of an OME fuel (42), wherein a piston end face (20) of a piston (46) is in the form of a plane (48), at least in the region in contact with the OME fuel (42) during operation. The invention also relates to a combustion chamber arrangement (10) in which the piston (46) is in the form of a bowl-in piston (16) having a bowl (22) which has a constant curvature (K) in a section parallel to a piston longitudinal axis (26). The invention also relates to the use of such a combustion chamber arrangement (10) for the injection of OME fuel (42) into a combustion chamber (12) of an internal combustion engine.
