Abstract (en)
[origin: WO2018184951A1] The invention relates to a luminaire (1), in particular a workplace luminaire, having a lighting means (2), a collimator (5) for emitting light emitted by the lighting means (2) in a substantially directed manner, a diffuser element (9) for emitting the light emitted by the collimator (5) in a substantially diffused manner, an optical element (13) for emitting the light emitted by the diffuser element (9) in a defined manner, and a clear light emitting element (10) which extends between the diffuser element (9) and the optical element (13) in order to delimit an area (R) together with the diffuser element and the optical element.
