Abstract (en)
[origin: WO2019007480A1] The present invention relates to a pump unit (10) which can be carried by an operating person and which serves for the pressurized filling of inflatable filling chambers with a fluid, in particular lifting pads (2), blocking pads, tents or the like, comprising a fluid pump (12), an electric motor (11) for driving the fluid pump (12), a battery (13), a control unit (17) for controlling the operation of the fluid pump, and a connector (18) for the connection of a fluid hose (3) which leads to the filling chamber, wherein a preferably manually actuatable control valve (16) is provided which is positioned on the pump unit (10).
