Abstract (en)

[origin: WO2018188944A1] The invention relates to a sensor (110) for detecting at least one property of a fluid medium. The sensor (110) comprises at least one sensor element (136) and at least one circuit carrier (112) with at least one control and evaluation circuit (114). The circuit carrier (112) has at least one protrusion (150). At least one temperature sensor (148) is arranged on the protrusion (150).
