Abstract (en)

[origin: WO2018187967A1] The present disclosure discloses an apparatus, server and method for vehicle sharing, wherein the vehicle sharing is between a user and an owner of a vehicle. A server for vehicle sharing is provided, the server comprises: a receiver configured to receive a trigger command in relation with renting of the vehicle by the user; a controller configured to generate an activation command based on the trigger command, wherein the activation command activates a self-diagnosis process of the vehicle; and a transmitter configured to output the activation command to the vehicle; wherein: the receiver is configured to receive a set of data from the self-diagnosis process; and the controller is configured to generate a report based on the set of data.
