Abstract (en)  
The invention provides a treatment couch (1) for use in physiotherapeutic treatment of a patient (29). The treatment couch (1) comprises a treatment platform (2) for supporting the patient (29). The treatment platform (2) is adjustable for adjusting the position of the patient (29). The treatment platform (2) comprises a base frame (3). The treatment platform (2) comprises a first adjustable frame (6). A first end (7) of the first adjustable frame (6) is tiltably connected to the base frame (3). The treatment platform (2) comprises a second adjustable frame (10) for supporting the lower body (32) of the patient (29). A first end (11) of the second adjustable frame (10) is tiltably connected to a second end (8) of the first adjustable frame (6). The treatment platform (2) comprises a third adjustable frame (13) for supporting the torso (31) and the head (30) of the patient (29). A first end (14) of the third adjustable frame (13) is tiltably connected to the second end (8) of the first adjustable frame (6).
