Abstract (en)

[origin: WO2018197822A1] The present invention relates to a pea albumin characterized in that its emulsifying activity is improved as it can emulsify more than 600 ml of corn oil per gram of albumin. The invention also relates to a method for obtaining the pea albumin according to the invention. It finally relates to the use of the pea albumin according to the invention in industrial, in particular food and pharmaceutical applications.
