Abstract (en)

[origin: WO2018198057A1] A building block (100) or a building block assembly (100) comprising a main body, a first coupling surface (120) on a first side of the main body, a second coupling surface (140) on a second side of the main body which is opposite facing the first coupling surface (120), one peripheral wall having a peripheral surface (160) or a plurality of peripheral wall having a plurality of peripheral surface (160) extending between the first coupling surface (120) and the second coupling surface (140) and defining a lateral or peripheral boundary of the main body, one coupling connector (172) or a plurality of coupling connectors (172) on or defining the first coupling surface (120) and defining a first coupling direction, one coupling connector (174) or a plurality of coupling connectors (174) on or defining the second coupling surface (140) and defining a second coupling direction, and one peripheral connector (176,178) and a plurality of peripheral connectors (176,178) formed on a peripheral wall.
