Abstract (en)

[origin: WO2018197779A1] The invention concerns a heat treatment assembly (10) intended to be installed in a vehicle passenger compartment (5), comprising: a radiant panel (1) configured to emit at least infrared radiation (3), and at least one reflecting element (2), the reflecting element(s) (2) having infrared reflectivity, the reflecting element(s) (2) being situated facing the radiant panel (1) so as to generate at least one reflection of said radiation (3).
