Abstract (en)
[origin: WO2018197268A1] The invention relates to a storage battery assembly (1), in particular for a motor vehicle (2), comprising at least one two-part battery housing (3), which has a holding chamber (4) for holding a plurality of battery modules (5), and at least one supply device (6), which is arranged in or on the holding chamber (4) and is provided for supplying at least two such battery modules (5). It is essential to the invention that the supply device (6) is arranged between two such battery modules (5) and is operatively connected thereto and that the supply device (6) has at least one channel (7), through which a coolant (8) can flow.
