Abstract (en)

[origin: WO2018224301A1] The process for making an upper (1) for shoes (2) with advanced technical characteristics, consists in knitting a first part (1a) of the upper with a group of needles (3) having an overall maximum number of needles in a tuck stitch or loop position or in a plain drop stitch position or in a missed stitch position, the maximum number of needles being equal to the number of needles present in a cylinder (5) of a circular knitting machine.
