Abstract (en)

[origin: WO2018197270A1] The invention relates to a handle for holding a weapon, the handle extending along a given axis (X) and comprising a plate (4) intended to be secured to a weapon and a knob (8) for gripping the handle connected to the plate and shaped to have places (9) intended to receive a user's fingers. The handle is characterized in that the knob is connected to the plate and mounted so as to pivot in relation to the plate on the given axis (X), the handle comprising at least one lock to temporarily block the pivoting of the knob in relation to the plate along the given axis (X). The invention also relates to a weapon comprising such a handle.
