Abstract (en)

[origin: WO2018197150A1] A connection element (1) for a moving contact of a vacuum interrupter having a connection body (40) and a flexible current conduction element (10), wherein the connection element (1) has at least one outer body (50) and the connection body (40) is connected to the at least one outer body (40) by means of a flexible, heat-conducting connecting piece (30). A gas-insulated switchgear assembly having a connection element of this kind is likewise disclosed.
