Abstract (en)

[origin: WO2018202544A1] Described are herbicide safener compositions containing herbicidal active ingredients from the group consisting of quinazolinone-6-carbonyl derivatives of formula (I), and safeners. In formula (I), Q is a heterocyclic group. Z represents a chalcogen atom. R1, R2 and W represent groups such as hydrogen and organic groups. Suitable safeners are, for example, mefenpyr-diethyl, cyprosulfamide and isoxadifen-ethyl. Formula (I). Said herbicide safener compositions are especially suitable for use against weeds in crops of useful plants.
