Abstract (en)
[origin: EP3620084A1] A refrigerated display counter (100) comprises: a frame (1), a back wall (10), a front wall (11), two side walls (12), a refrigerated compartment (R) defined by the frame (1) and the walls, a refrigeration system that is configured in such a way to cool the refrigerated compartment (R), support means (2) disposed in the refrigerated compartment (R) in order to support products to be displayed, and insulation panels (3, 4) disposed on the walls of the refrigerated display counter. The insulation panels comprise two insulation panels (4) of vacuum insulation panel (VIP) type that are disposed on the back wall (10) and on the front wall (11) of the refrigerated display counter, respectively,
