Abstract (en)

[origin: WO2018208200A1] The present invention relates to a holder (1) for at least one object (3), such as a tool such as for example a carpenter's rule, comprising at least one storage receptacle (2) and at least one connecting device (5) with which the holder (1) is connected to a carry-all, garment or the like. The holder (1) has at least one first connecting device (5) for connecting the holder to a belt or the like. Further, the holder (1) has a second connecting device (12) for connecting the holder (1) to a leg pocket or the like, and at least one third connecting device (17) for connecting the holder to a button or the like. Furthermore, the holder (1) has at least one fourth connecting device (20) for connecting the holder to a suspender or suspenders, and that the storage receptacle (2) in alternative embodiments includes at least one support device (24).
