Abstract (en)
[origin: WO2018206314A1] The invention relates to an HUD system comprising: at least one first HUD device, specifically an AR-HUD device, comprising at least one first image source (11) for displaying a first image, produced by means of at least one hologram, in a first display portion (19) of a display region; and at least one second HUD device comprising at least one second image source (12) for displaying a second image, produced using geometrical projection optics, in a second display portion (20) of the display region.
