Abstract (en)

[origin: WO2018206347A1] The invention refers to a pack (100) for preparing a food or beverage product from one or more food or beverage ingredients comprising an insert (10) and a container (20) where the ingredient or ingredients are stored, the insert (10) comprising a fluid inlet (110) configured for introducing an aqueous fluid under the form of a jet (50) in the inner volume of the pack, and the insert (10) further comprising an air inlet (150) communicating with the exterior of the pack (100) and configured for introducing air in the inner volume of the pack (100). The invention further refers to the use of a pack (100) as described for preparing a food or beverage product.
