Abstract (en)

[origin: WO2019223891A1] The invention relates to a gripper assembly for lifting a flexible semi-finished product (100) from a support (200), wherein the gripper assembly has a flexible semi-finished product (100), which lies on a support (200), and at least one gripper pair, which has a suction gripper or needle gripper (1) and at least one clamping gripper (2), wherein the suction gripper or needle gripper (1) can be pivoted about an axis (3) between a holding position for holding an edge (101) of the flexible semi-finished product (100) and a transfer position for transferring the edge (101) of the flexible semi-finished product (100) to the clamping gripper (2). A corresponding method is also described.
