Abstract (en)
[origin: WO2018206060A1] Method for cleaning a shut off valve (1) in a process plant (2) of coatings after use, said shut off valve (1), when mounted in a process plant (2), goes through a number of cleaning steps comprising rinsing with a rinsing agent, heating with hot steam and drying under low pressure. According to the invention at least one rinsing process with rinsing agent is performed with the shut off valve (1) in a closed condition.
