Abstract (en)  
[origin: CN110905317A] Lid fitting for swingable mounting of a lid to a furniture unit, the lid fitting comprising: a base element for mounting the lid fitting on a side wall of the furniture body; a swivel arm which is pivotally attached to the base element; and a connecting arrangement with two connecting elements for pivotally connecting the swivel arm to the cover. One of the connecting elements is pivotally connected to the swivel arm and one of the connecting elements is connected to the other connecting element in an assembled state of the lid fitting and is intended and suitable for this purpose on the cover to be fastened, one of the connecting elements having a guide section and a head section, the other of the connecting elements having a guide slot are pushed onto the guide section in a mounting direction of the lid fitting by use of the guide slot, the connecting elements engages behind the head section in a direction transverse to the mounting direction, and the lid fitting further includes a fixing device, by means of which the connecting elements (8, 9) are fixed to one another in the assembled state of the lid fitting.
