Abstract (en)
[origin: WO2018211347A1] An agricultural sprayer (100) is described, comprising a support frame (105) provided with a pair of sustaining members (110) and adapted to be hooked to an agricultural tractor on which at least one reservoir (115) for a liquid to be sprayed and a pump (125) for pumping the liquid from the reservoir (115) to a plurality of liquid dispensing nozzles are installed, wherein the reservoir (115) is mounted on a first portion (130) of the support frame (105), which is provided with a hooking device (140) for hooking to the agricultural tractor, while the pair of sustaining members (110) is mounted on a second portion (135) of the support frame (105), which is articulated to the first portion (130) by means of an intermediate joint (145) adapted to define at least one articulation axis (A).
