Abstract (en)

[origin: WO2018210953A1] The present invention is directed to a method (100) for producing a trapeziometacarpal prosthesis intended to replace a potentially damaged trapeziometacarpal joint, in particular using a prosthetic trapezium (1). The present invention also relates to a method for producing a metacarpal pin (7) intended to replace the articular surface of the first metacarpus linked to the trapezium bone.
