Abstract (en)  
[origin: WO2019011571A1] A contact press-on assembly (14) for a switching contact piece (3, 4) of an electrical switching unit has a first stop (15) and a second stop (16). A spring element (17) extends between the two stops (15, 16), wherein the first stop (15) can move relative to the second stop (16). The second stop (16) provides a counterbearing (18) for the first stop (15), wherein a rotary bearing for the spring element (17) can move together with the first stop (15).
