Abstract (en)
Provided are a terminal screen, a control method thereof, and a terminal. The terminal screen includes: a substrate (10) and a display layer (20) arranged on the substrate (10). The display layer (20) includes a main display area (21) and n auxiliary display areas (22), and n is a positive integer. The main display area (21) and an i-th auxiliary display area (22) in the n auxiliary display areas (22) have different attributes, and i is a positive integer that is less than or equal to n.
