Abstract (en)
[origin: WO2018219616A1] The invention relates to a domestic dishwasher (1) with a washing container (2), which comprises a base (7), a washing container shell (12) connected to the base (7), and a back wall (9) connected to both the base (7) and the washing container shell (12), wherein the base (7) comprises a first connection flange (19) and the back wall (9) comprises a second connection flange (20) that rests against the first connection flange (19) at least in sections, wherein the second connection flange (20) has a deformation region (21) that projects beyond the first connection flange (19), and wherein the deformation region (21) is bent in a direction (R) oriented away from the first connection flange (19) in such a way that the deformation region (21) rests against the second connection flange (20).
