Abstract (en)

[origin: WO2018215422A1] The invention relates to a method for producing a seal in or on a closure (10) for a container, characterized by the following steps: a) pre-metering a sealing compound which contains a polymer, b) plasticising the pre-metered sealing compound by means of ultrasound, c) applying the pre-metered sealing compound to a sealing face (22) of the closure (10). The invention further relates to a closure for a container, comprising a seal, and an apparatus (50) for producing a closure (10) for a container.
