Abstract (en)

[origin: WO2018224519A1] The invention relates to a method for producing a redispersible dispersion powder, to the redispersible dispersion powder which can be obtained according to the method, to an aqueous dispersion which can be obtained according to step (1) of the method, to a construction material composition containing the redispersible dispersion powder and/or the aqueous dispersion, to the use of the redispersible dispersion powder in a construction material composition, and to the use of the aqueous dispersion for producing a redispersible dispersion powder.
