Abstract (en)
[origin: EP3636105A1] The invention comprises two arched parts (1) made of plastic material that are coupled on a perimeter edge (2) having a closed contour which is part of a base (3) belonging to a piece of furniture (4). The perimeter edge (2) of the base (3) comprises a lower section (2a), an upper section (2b) and an intermediate section (2c) in which the other two sections, lower (2a) and upper (2b), converge. Each arched part (1) comprises a rear portion (9) in contact with an inner face (10) of the upper section of the edge (2) of the base (3) of the piece of furniture (4); wherein said rear portion (9) is an elevation of an upper face (1a) of the arched part (1) which presses resiliently against the inner face (10) of the upper section (2b) of the edge (2). The arched parts (1) are joined at the ends thereof by a tongue-and-grooved coupling.
