Abstract (en)
[origin: WO2018228630A1] The invention relates to a lockable carrier adapter for fastening to a vehicle carrier, in particular to a bicycle luggage carrier, a roof top carrier of a car or the like, said adapter comprising at least two or more support parts and at least one resiliently biased, movable hook element for engaging behind a part of the vehicle carrier, the at least one resiliently biased, movable hook element being mechanically unlockable counter to the biasing force.
