Abstract (en)  
[origin: WO2018229667A1] The present invention refers to a condensation laundry dryer comprising a steam generator (12), and in particular to an automatic filling of the steam generator tank (12') with water. In accordance with the invention, a condensate tank (8) is arranged in a receptacle (10) which is via a draining line (11) fluidly connected with the container (12') of water for the steam generator (12), wherein in the close vicinity of said condensate tank (8) a branching element (13) is connected to a line (7) for transporting the condensate from a pump (6) to the condensate tank (8).
