Abstract (en)
[origin: WO2018228613A1] The constructional arrangement of the supporting frame and the cover of the technical opening in the wall or ceiling of the construction, where in the door of the cover there is formed an opening size adapted for inserting credit cards or similar document. On the inner side of the door on both sides of the opening for the card there is positioned at least one rider with the advantage in the shape of the letter "U" connected to the locking rod when for the locking rod there is in the internal segment of the frame located a housing, in which there is inserted part of the locking rod in position "closed". The rod is pushed in the housing by pushing spring.
