Abstract (en)

[origin: EP3639697A1] A lateral spacer (50) for slidable drawers (12) is disclosed. The spacer is couplable to a wall (10) of a piece of furniture to which the drawer belongs and to a linear translation guide (14) for the drawer. To simplify the spacer it comprises a hollow tubular shell (52) which extends along a longitudinal axis (X), has a constant cross-section on each plane orthogonal to the axis (X), and is in one piece.
