Abstract (en)

[origin: WO2019025267A1] A structurally independent vertical striking element (10) for a leaf (6) of a plastic cabinet (1), comprising a first and a second wall (11, 12), located on different vertical planes and a vertical third wall (13) for connection between adjacent vertical edges of the first and second wall (11, 12), the first, second and third wall (11, 12, 13) providing, in combination, a vertical symmetrical striking surface (18) for 180° rotation around a vertical median axis (P) of the third wall (13).
