Abstract (en)

[origin: WO2019001689A1] The present invention relates primarily to specific mixtures that contain organic solvents, flavoring agents, carrier substances and water, the concentration of the carrier substances in the mixtures being at or close to the saturation concentration. The present invention further relates to the use of the mixtures as spray dispersions, to methods for producing powders by spray dispersion of the mixtures and corresponding powders, products containing said powders and methods for producing same.
